ENGLISH TRANSLATION OF THE KOSHER CERTIFICATE

We certify that POLYNT S.p.A is producing in its factory, located in Scanzorosciate (Bergamo) – Italy, MALIC ACID, FUMARIC ACID and SUCCINIC ANHYDRIDE, without adding or using any substance of vegetable or animal origin.

The production process is automatic from the beginning to the end, without any human contact.

Based on both our visits to the production site and the effected chemicals analysis, we certify that the above products are **KOSHER also for the Passover period.**
