## SMC 4500 R23

SMC 4500 R23 is a sheet moulding compound based on an unsaturated polyester resin reinforced with glass fibres. This SMC has been developed for sink and tray application.
SMC 4500 R23 joints good mechanical properties with stain and chemical resistance.
SMC 4500 R23 has been studied to show a decorative effect on the part moulded.
SMC 4500 R23 is formulated according to RoHS, REAC regulation (SVHC) and WEEE European legislation.
